EXAMINER'S COMMENT

Allowable Subject Matter

1. Claims 1-5, 7, 8 and 10-19 are allowed.

Examiner's Statement of Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: No prior art was found that teaches or fairly suggests a heat sensitive recording material that is made up of the claimed constituent layers, with each of those requisite layers further having constituent components that match the nature and quality as that which is claimed in the instant application. The U.S. Patent of Takeuchi (5,593,938) is now the closest prior art to that which is claimed in the instant application. However, though Takeuchi teaches a thermal-sensitive recording material, it fails to teach or suggest that the binder in the heat-sensitive recording layer is a urethane-based resin and a styrene-butadiene-based resin and that the binder in the backside layer is a (meth)acrylamide-based resin and an ionomeric urethane-based resin.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
